The Mockingbird Flying Club offers affordable flying to members from all walks of life:

If one of your goals is to learn to fly, Mockingbird offers beginning flight instruction.

If you have your pilot's license, but have not flown for a while, Club Membership is an excellent way to get back into it!

If you are interested in working on an advanced rating(s), or simply wish to maintain proficiency, Club instructors and fellow members are readily available to guide you, or act as safety pilots.

The Mockingbird Flying Club has been in existence for over 50 years, and consists of professionals, students, and a variety of other individuals who all share a love of flying. Members all work to maintain the aircraft and the Club's financial stability. The Mockingbird Board of Directors meets regularly to keep the Club moving forward with Club operations, aircraft upgrades, and improvements.

Social opportunities include fall and spring "birdie parties", where members wash and wax all Club planes. There is an annual business meeting in early December, and an annual banquet in January. There are safety seminars, and/or group flight reviews offered from time to time, as well.

How do I become a member?

1. Check the website, or contact the Club President to inquire about share availability, current rates, etc.
2. Make arrangements to purchase a share.
3. Fill out an application, and arrange for a Board Interview with the Club President.
4. Upon acceptance by the Club, complete your share purchase with the Seller.
5. Arrange for a checkout or instruction with a Certified Flight Instructor. Members must complete a checkout with a CFI for all Club planes the member plans to fly.
6. Saratoga insurance requires a minimum of 250 hours total time.
7. Have fun flying the airplanes!

Rates

(subject to change)

Shares - The share price is negotiated between Shareholder and Buyer.

Dues - \$75 per month. This amount includes insurance and fixed costs.

Aircraft Rates - The following hourly rates are "dry", which means the flying Member purchases their own fuel in addition to the Club hourly ("hobbs") charge:

Piper Archer II - \$55 / hour

Piper Archer II - \$55 / hour

Piper Saratoga - \$110 / hour

Assessments: These may occur if the Club sells or purchases an aircraft, or if an extreme financial condition occurs. Assessments are extremely rare, and do not occur without membership approval.

(sales tax applies to the above rates)

For additional information, contact:

Club President - Neil Schmid
